

If you see this illustrious logo, be assured that only the best pizza made, will be available for your dining experience.

Quite literally translated as, in the original authentic style of Naples, this seal is our promise of the unsurpassed quality of the old world!

As in Naples, Campania, we only use the finest and freshest ingredients available. We also make our dough to the exacting standards set down over five centuries ago!

Be prepared to be taken back to a time when simple perfection was a way of daily life, and when pizza was a gift from God.
